Writing Sets

ACTUALLY FILL THEMSELVES

MANUFACTURED BY GREGORY FOUNT-O-INK CO. LOS ANGELES 41, CALIF.

FOUNT-O-INK WRITING SETS DON'T GO DRY!

They Actually Fill Themselves --- And No Messy Well Filling Ever!

Always ready for instant action, Fount-O-Ink Writing sets speed up office routine and save precious time for busy people. They start instantly and do not go dry. The founts hold ink to last a busy user six months to a year. Ink founts are clean and easy to change, eliminating messy filling.

The ink is fed by induction from the supply bottle to well just as it is used. Atmospheric pressure is controlled, the ink level is correct and constant. The Fount-O-Ink pen fills at its very tip by capillary action, and thus is never overloaded but writes with a clean, uniform line from beginning to end.

Fount-O-Ink Writing Sets end the nuisance of dry or empty pens. The executive with Fount-O-Ink need never lose a thought because his pen "won't go." The order clerk with Fount-O-Ink never misses a message; the stenographer gains speed and accuracy she never dreamed of; the bookkeeper gets those clean, even pages he has always dreamed of. Everyone who writes gets new impetus in their work, greater accuracy and better content. Fount-O-Ink Writing Sets are a thrill to use that makes work with them a pleasure.
